Company Profile

We are young, we are excellent!
Our products are used in all the five continents, from developing countries to developed zones. We made registrations in more than 30 countries involving about 120 products by different formulations, such as SL, EC, SC, WP, WDG, etc. We offer high quality goods, exquisite packages, quick delivery, and perfect after-sale service. Endeavor makes us development, development makes us excellent.
We are not the speaker; we are a man of action.
Nature feed us to grow, we feed it back. World's people give us hope, we take the responsibility. YUFULL and its partners are specialized in manufacturing, researching, and exporting crop protectors, public health and veterinary products. Rich industry experience and "customer first" service philosophy in last 20 years built us a good reputation, but we must keep moving, our final target is to deduct poverty, sustainable development, and benefit farmers worldwide.
We will be with you.
